

## **MDI Installs Vibration Monitoring Systems**

[www.Machinediagnostics.Com](http://www.Machinediagnostics.Com)

**Technical Sales; (229) 942-8139**

### **You Decide;**

- Wired / Wireless
- Shut-Down Capable (Yes/No)
- Standard ICP Sensors, Proximity Probes, Dedicated
  - Stand Alone or Networked
  - Overall Vibration or Frequency Specific
- Frequency Range Low - High (Less Than 4 kHz or Up to 40 kHz)
  - Web Based or Local Only
  - Software for Vibration Analysts (Yes/No)
- Communicate As I/O with Process Controls, Tags, 4-20ma Other (Yes/No)
  - Email or SMS Notifications On Alarm (Yes/No)
  - Adaptive Alarms Using RPM or Frequency (Yes/No)

### **Applications;**

- Safety Sensitive
  - Critical / Expensive Assets
  - Complicated Assets - High Speed, Gears
  - Remote Locations Not Often Accessed
  - Where Vibration Is a Process Variable (or Should Be)
- Variable Process Including Speed, Load, Product Changes
- For the Masses; Want Low Cost but Lots of Assets Monitored

### **Invite Machine Diagnostics to Consider Your Application;**

- Phone Consultations
- Site-Visits to Review Specific Applications
  - Complete Installs, Turn Key
  - We Provide Hardware, You Install
- We Program Software and Perform Proper Set-Up, You Install
